Members are concerned about the impact of COVID-19 (Coronavirus) and appropriately protecting their companies, employees and guests. For that reason, [we have set up this page](#) to create open communication with members about emerging best practices in the industry under the current global circumstances.

We are looking for your input on what actions you have taken to protect against COVID-19. As results come in, we will update the web page to share steps members are taking globally so that we can protect our companies and our industry.

Examples of changes and practices could include:

- Have you changed housekeeping protocols?
- Have you updated your cancellation policy?
- Have you changed interactions and communication with guests to help make them feel safe?

While this page is being built, we do have resources readily available. Through CHPA's partnership with MultiState, we have a COVID-19/Coronavirus tracking tool. This reference information monitors the response of state and local governments on the coronavirus. This quick and easy reference includes updates and information issues by state and key local health departments, including any states of emergency declarations, executive orders and other sources of official information in all 50 states. MultiState's Healthy Policy Team will [update this resource daily](#).

Click the button below to visit our COVID-19 resource page and fill out the industry best practices form.
